## SUBJECT-ENGLISH

### Read the given passage carefully and choose the correct option.

The landlord and his wife were up very early and were surprised to see the scientist's door wide open. Usually it was shut and locked, and he was furious if anyone entered his room. The opportunity seemed too good to be missed. They peeped round the door, saw nobody and decided to investigate. The bed clothes were cold, showing that the scientist must have been up for some time, and stranger still, the clothes and bandages that he always wore were lying about the room.

All of a sudden Mrs. Hall heard a sniff close to her ear. A moment later the hat on the bed post leapt up and dashed itself into her face. Then the bedroom chair became alive. Springing into the air it charged straight at her. As she and her husband turned away in terror, the extraordinary chair pushed them both out of the room and then appeared to slam and lock the door after them.

### Read the questions. Choose the correct option.

1. Why were the landlord and his wife surprised?
