Answers of MCQ

[With explanation]

Subject : Mathematics

Class : IV

Date: 27.04.20

Day: Monday

1. a) 0 [As any number + 0 = number itself]
2. b) 5394 [If the order of the number is changed the sum will be same]
3. d) 7392 [As any number + 1 = next number]
4. c) 100 [If 100 will be added with a number, hundred place will be increased by 1]
5. d) 225 [If the order of the number is changed the sum will be same]

Date: 28.04.20

Day: Tuesday

1. d) 1 [As any number + 1 = next number]
2. a) 234 [If the order of the number is changed the sum will be same]
3. b) 7 [As L.H.S.= (7+8) + 9=15 + 9 = 24, R.H.S.=7 + (8 + 9) = 7+ 17 = 24]
4. c) 5225 [If 1000 will be added with a number, thousand place will be increased by 1]
5. b) 10 [If 10 will be added with a number, tens place will be increased by 1]

Date: 29.04.20

Day: Wednesday

1. c) 5 [one lakh =100000, 1 followed by 5 zeroes.]
2. a) 107000 [7000 + 100000 = 107000]
3. b) Million [As other options are not present in International system of numeration]
4. b) 8499 [8500-1 =8499]
5. d) 3 [The places in ones period are ones, tens and hundreds.]

Date: 30.04.20

Day: Thursday

1. a) sum [As 0 is the Additive Identity]

- 2. b) VVVV [As no symbol can be repeated more than 3 times and V is never repeated]
- 3. b) 10 [As ones place is 2 and $2 < 5$, so nearest 10 of 742 is 740]
- 4. c) next [As successor = given number + 1]
- 5. b) Comma [As comma is used to separate the period in a number]

Date: 1.05.20

Day: Friday

- 1. d) 1000 [As hundred place is 5 and $5 = 5$, so nearest 1000 of 8559 is 9000]
- 2. a) XXXI [As XXXI = 31, others are meaningless.]
- 3. d) 0 [As, any number $- 1 =$ number itself]
- 4. c) 75 [LXXV = $50 + 10 + 10 + 5 = 75$.]
- 5. b) 74 [If the order of the number is changed the sum will be same]

Date: 2.05.20

Day: Saturday

- 1. b) 998 [Predecessor of 1000 is 999, $999 - 1 = 998$.]
- 2. b) 53000 [As hundred place is 8 and $8 > 5$, so nearest 1000 of 52825 is 53000]
- 3 c) 500 [As we know V = 500]
- 4. c) 734 [Predecessor of 734 is 733, $733 + 1 = 734$.]
- 5. d) 9999 [As the largest 4-digit number formed by 4 times 9]

DAILY BASIS ASSIGNMENT ANSWER

STD: IV

SUBJECT: COMPUTER

DAY: MONDAY

DATE : 27.04.2020

1) c)Father

EXPLANATION: Charles Babbage invented the difference Engine and later he modify it into Analytical engine .So he is the father of Computer

2) a) ENIAC

EXPLANATION: It was the first electronic Computer. It was developed by IBM corporation in 1946

3) d) All of the above

EXPLANATION:A Computer is an electronic device .It consist of Peripheral device like CPU, Memory, Input and Output device

4) c) 1642

EXPLANATION: Blaise Pascal invented a faster Calculator in 1642.It was called Pascaline.

5)a) CPU

EXPLANATION: CPU is called the brain of Computer .It does all the calculation in the computer

DAY: TUESDAY

DATE: 28.04.2020

1 a)CPU

EXPLANATION: CPU is called the brain of Computer .It does all the calculation in the computer

2. c) Business

EXPLANATION: The full form of IBM is International Business Machine

3 b) Second

EXPLANATION: Abacus was invented in 2nd century by the people of China

4.d) Abacus

EXPLANATION: Abacus ia a manual device. It was first calculating device which does addition and subtraction

5.a) Calculation

EXPLANATION: Human and Computer both can do the calculation

DAY: WEDNESDAY

DATE: 29.04.20

1.b) Computation

EXPLANATION: Computer is an electronic device which can do the calculation .rest the things can only human can do.

2. b) Accuracy

EXPLANATION: Computer can give the correct output. It has a

wonderful characteristic

3 c) Pascaline

EXPLANATION: Blaise Pascal invented a faster calculator in 1642. It was called pascaline

4 d) Both a and b

EXPLANATION: Abacus and Pascaline both can do only Addition and Subtraction. It cannot do multiplication and division

5.a) Abacus

EXPLANATION: Abacus was invented in 2nd century by the people of China

DAY: THURSDAY

DATE: 30.4.2020

1)d) All of these

EXPLANATION: Human can do all the things like Cooking ,washing, feeling

2)c) Both a and b

EXPLANATION: ENIAC and EDVAC are the first generation Computers (1946-1956).both were made by valve

3)b) Supercomputer

EXPLANATION: Fifth generation computer is Super Computer .It is a modern Computer

4)d)Fifth

EXPLANATION: Robotics is the fifth generation computer. It is based on Artificial Intelligence

5)c)Both a and b

EXPLANATION: Second generation Computer is made of valve and diode.

DAY:FRIDAY

DATE: 01.05.2020

1)b) Printer

EXPLANATION: Output device is used to produce output .printer can give output mouse, light pen and keyboard are the input device

2)a) Keyboard

EXPLANATION: Input device is used to give the input to the computer. Monitor and printer are the output device

3) b) International

EXPLANATION: The full form of IBM is International Business Machine

4)c)Intelligent

EXPLANATION: The characteristic of computer is that computer is very intelligent. It gives output in fraction of seconds

5)b) Easy

EXPLANATION: Laptop is very small in size It can easily carry from one place to another

DAY:SATURDAY

DATE: 02.05.2020

1) b) Output

EXPLANATION: Output device is used to produce output .Printer can give output mouse, light pen and keyboard are the input device

2) a)Unit

EXPLANATION: The full form of CPU is Central processing Unit

3) d) Electronic \

EXPLANATION: Computer is an electronic device. It runs on electricity

4) a) ENIAC

EXPLANATION: ENIAC and EDVAC are the first generation Computers (1946-1956).both were made by valve

5) a) Hardware

EXPLANATION: Keyboard is hardware. It can be feel and touch.
